Coca-Cola helps get Mahidol rolling
 As part of Coca-Cola's "Live Positively" campaign to promote active and healthy lifestyles, the Coca-Cola system in Thailand – led by top executive and ThaiNamthip vice chairman Pornwut Sarasin, fifth left – recently contributed 520 bicycles to the White Bike Project at Mahidol University's Salaya campus. On hand were Mahidol president Piyasakol Sakolsatayadorn MD, fourth left, and other members of the administrative board. The project encourages students to stay physically active and reduces air pollution around the campus.
